JR/MacGregor DSX9 Transmitters

Please note the information contained in the official release from Japan Remote Control Co Ltd relating to the above RC sets.

JAPAN REMOTE CONTROL CO.,LTD.

Factories: Osaka, Mie, Hyogo Phone:06(6732)0202 FAX:06(6724)0515

2008/05/13

To whom it may concern

Japan Remote Control Co. Ltd are pleased to confirm that the MacGregor/JR DSX9 radio control system has been tested and is CE approved in accordance with R&TTE Directive 99/5/EC.

The MacGregor/JR version features internal modifications to comply with the above Directive. MacGregor Industries Limited are our sole customer for CE modified DSX9 sets. The MacGregor/JR DSX9 is therefore the only JR DSM R/C system currently approved for use within the United Kingdom.

It has been brought to our attention that a small number of non-CE modified DSX9 sets have been grey imported into the UK. These sets may exhibit CE stickers, but these stickers are not valid as the set will not have been CE modified. We would also like to advise that the X9303 version of this radio, as sold in North America, has also not been CE modified, irrespective of any CE labels that they may carry. No version of X9303 should be used within the UK.

We recommend that UK modellers only buy MacGregor labelled DSX9 sets from authorised model shops.

Any UK modeller who may have purchased either a non-MacGregor DSX9 or X9303 is advised to return it to their supplier and to exchange it for a genuine MacGregor/JR set or a refund. Genuine MacGregor sets are easily distinguished by the MacGregor/JR label on the front of the transmitter case, and the MacGregor CE label at the base.

If you require any further clarification on this matter, please contact our sole UK distributor, MacGregor Industries Limited at:
